About This Game

Welcome Home.

'Our Darkest Night' is a 2.5D video game that aim to give a thrilling and challenging experience to the players as they encounter home invasion situation and trying to save lives of the characters in the game from a dangerous criminal who was their uninvited guest. It will give players the opportunity to solve the problems with the freedom of choices. In the other side they have to dealing with a dynamic event system that is impossible to predict. So who are you then? The hunter or the hunted?

Nowadays, Action-Survival game is one of the most popular trends in the world of video game industrys. It challenges the player and gives them a thrilling experience by trying to survive in the difficult situation with limited resource. As above-mentioned our team of developers intended to create a Sandbox Action Survival game that combined with psychological thriller story plot to deliver players a unique gaming experience.

I was wary to purchase this after reading the other review on this website.

Gone through the tutorial, and although there are issues with overly text heavy tutorials and some confusion in what to do I have found the game to:

- Be very stable
- Scary, at least for me
- Have a good art style
- Be surprinsgly meaty for an early access game.

If I had one major suggestion at the moment for the developers it would be to flesh out the tutorial system. I have made a video showing my first 15 minutes of gameplay and the lack of knowing how to interact, or having to read many screens of text is my only real negative so far.

Check the game out; and if you'd like to check out some gameplay of mine go to the link below:
